

DECLASSIFICATION PROGRAM MANAGERS COUNCIL

Agenda, June 1998 Meeting

(b) (2)
(b) (3)
(b) (5)

DPMC Members:

Events are unfolding rapidly concerning a special search request from the Senate Select Committee on Intelligence (SSCI) to the Intelligence Community agencies. Most of you are probably aware of this request which involves China.

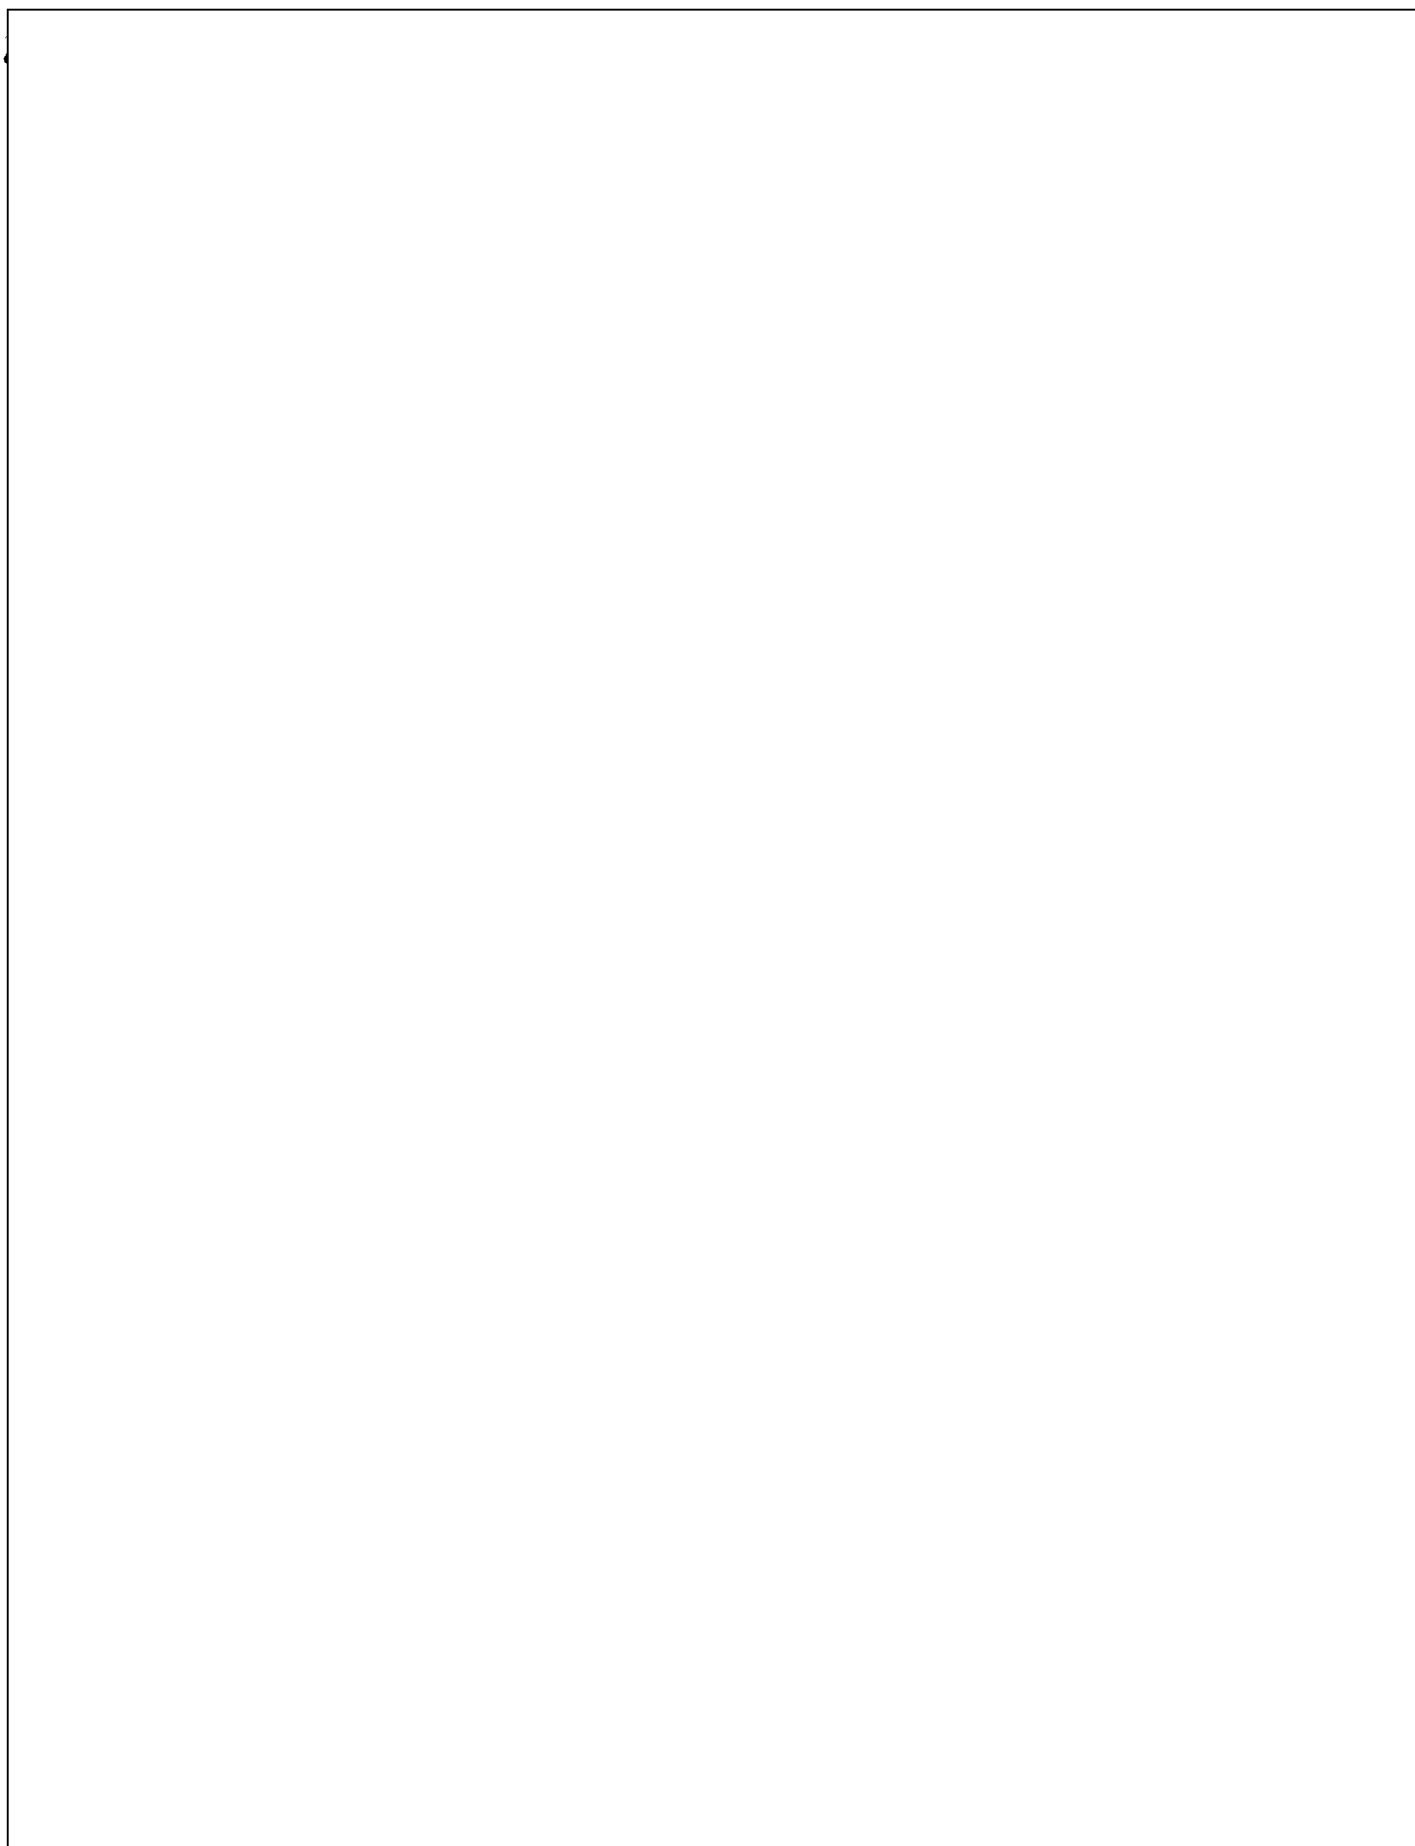

CIA/Office of Information Management (OIM) has appropriately concluded that a meeting of the DPMC's Public Disclosure Coordinating Committee (PDCC) is needed to ensure that Community POCs are properly identified for this project and to discuss preparation for the potential move to later declassify some of the records involved in the request. This meeting will probably be called during the week of 29 June at [REDACTED] exact time & place TBD.

Because we are also due for a quarterly DPMC meeting, I have asked Ed Cohen to allow us to link the two meetings since almost all of you serve on both entities. For that reason, the DPMC agenda appearing below is abbreviated; when we conclude our PDCC meeting, we will have a brief DPMC.

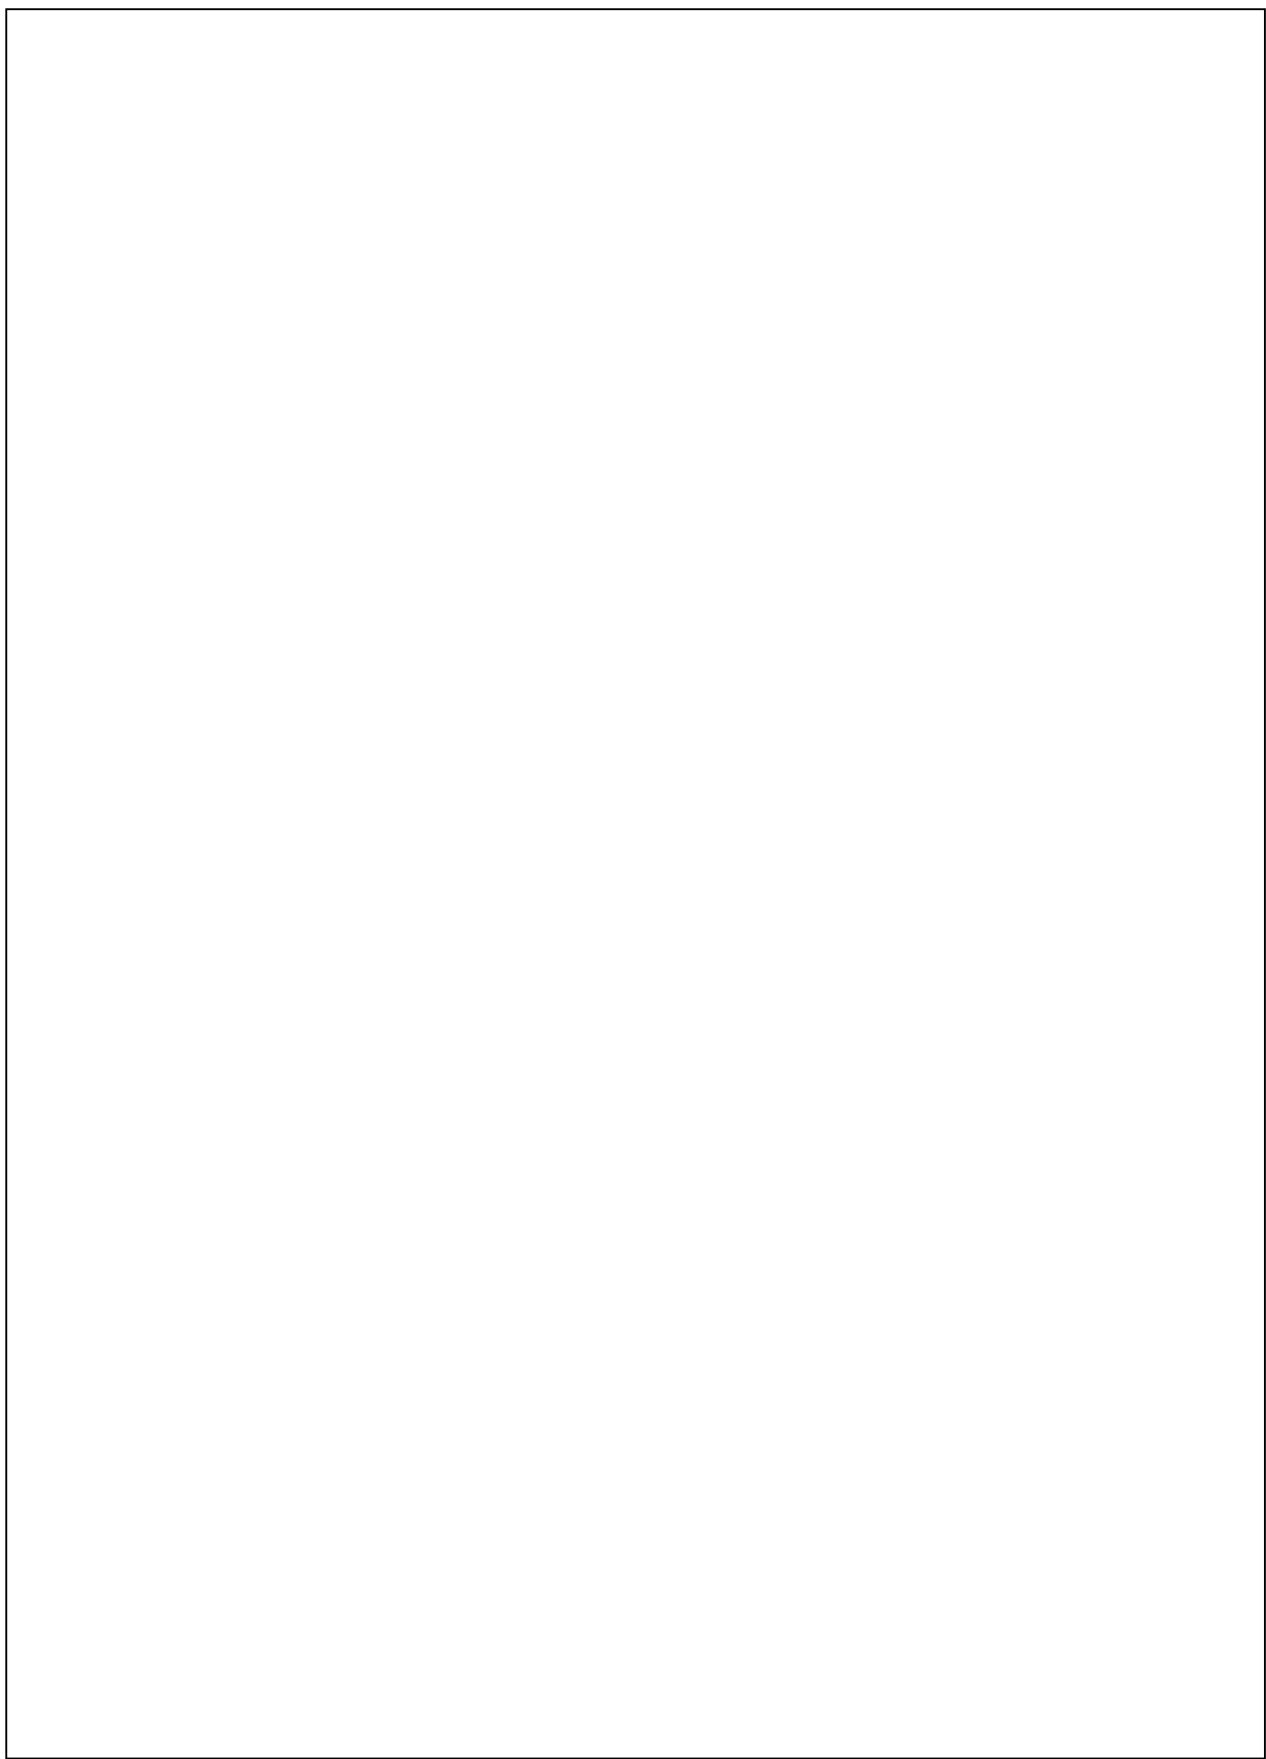

Note for NIMA & FBI members: I realize that PDCC is not familiar to you. It is basically an institutional effort to avoid another Gulflink; we will explain further at the meeting. As far as representation is concerned, probably a good starting point is that if you are a member of DPMC, you also represent your organization on the PDCC.

DPMC Agenda

- I. Committee Reports (abbreviated).
 - Automation Working Group
 - External Referral Working Group
 - Public Disclosure Coordinating Committee
- II. Old Business:
 - Next step in coordinating DPMC charter DCID.
 - PDCC & Gulflink guidance to the IC.
- III. New Business: Transfer of still classified codeword records to NARA for custodial archiving. (DOS/Rossman.)
